

Spider Solitaire: the rules

1 player · 104 cards (two decks) · clear eight runs · free to print from onlinecardgames.app

Goal

- Make eight full runs from king down to ace in one suit. Each finished run is removed.

The layout

- Ten columns: four of 6 cards and six of 5, with only the top card face up. The 50 cards left are the stock. Choose 1 suit (easiest), 2 suits or 4 suits (hardest).

Moves

- Put a card on any card one rank higher, whatever the suit.
- A run can only be moved together if it is all one suit.
- Any card or run can go into an empty column.
- Tap the stock to deal one new card to each of the ten columns. You can't deal while a column is empty.
